

Tuskegee Airmen Essay Contest

The Tuskegee Airmen were the first group of African Americans who joined the military. They were not only the first but also had one of the best pilots during World War II. Even though they'd risked their own lives to fight for this country they were segregated in the military because of the color of their skin. They were also treated unfairly in regular civilization. But many African Americans known as the Tuskegee Airmen decided to join the military because they were loyal and full of excitement to experience the Airforce. In this essay I will talk about the Tuskegee Airmen and most of their six guiding principles. 1.

While the military admitted the airmen, they refused to train African Americans or any person who was different. the military refused to train them President Roosevelt ordered the Army to train them. During the training they were assigned with Africa American instructors who called them awful names but they only did that to prepare them for American instructors who never wanted anything to do with the. This is an example of believing in yourself and never quitting. 1.

1.After they completed their training they became the first Africa Americans to join the Airforce. This is when they became known as the Tuskegee Airmen. This also gave them the determination to Never Give Up. During World War II The Tuskegee Airmen flew more than 15,000 sorties and they have killed 36-237 German planes and soldiers. At one of their missions the Tuskegee Airmen had to paint their planes tails red for identification purposes that also giving them the nickname "Red Tails" They escorting B17 and B25 bombers and lost a few .This show the principle to all expect to win. 2.

The Tuskegee Airmen are important because they achieved one of the main six principles during their time in the military. Not to mention they also face criticism and are treated unfairly but that doesn't stop them to continue on what they wanted to accomplish. In my opinion the Tuskegee Airmen were courageous and determined men who changes the laws of segregation in the military and made a whole impact on their community to fight for their rights as citizens.2.
