

Tuskegee Airmen Essay

The Tuskegee Airmen were the first group of African American pilots to fight in WWII, they were bombers and pilots. The name also applies to other types of support such as navigators, mechanics, instructors, team leaders, nurses, cooks, and others. In this paper I will describe the Tuskegee Airmen and their six guiding principles that led to their success. (2)

One reason the Tuskegee Airmen were important in WWII was because they were the first African-Americans to fight in the air for America. They were important to the history of America. They broke the color barrier and thought that they couldn't do it. They too fought for their rights, and others. (2)

Tuskegee Airmen were the first group of African American pilots to fight in WWII, they were bombers and pilots. The name also applies to other types of support such as navigators, mechanics, instructors, team leaders, nurses, cooks, and others. They were not accepted into the army.

In WWII they were best known as the first African Americans to fight as airmen. And they were not only men but also women. (1)

Lastly they achieved many things from that, such as less racism and the approval of groups in the authorities such as police or things like that. Their battles took place in the Mediterranean and in southern Italy. It may not be the best argument but it can be useful for some readers who are not informed of the subject. I want them to know that this was a clear example that not even racism was an excuse for the Tuskegee Airmen to be part of the army. (3)
