

Tuskegee Airmen Essay

This story is about the Tuskegee airmen and it is extremely important to American history. They were the first African American Pilots to serve in the US army . In this story I will inform you on how they demanded changes and stuck up for themselves against the disgusting treatment they were facing .

Altogether, I will describe the Tuskegee Airmen and the mistreatment they had to go through that was unbearing. They were spat on and called out of their name. Their job was to fly their planes in front of the white pilots, so if they were shot at they wouldn't get shot at . While the war was happening they helped save a lot of white pilots even when they came back from the war there was still segregation in the military. They were going up to bat with the whole military just for the right they know and do deserve. (1.)

Lastly, this Executive order 9981 this order desegregated the military , also there was this civil rights movement called Brown vs. the Board of Education this movement helped make the decision to end segregation of schools in America . The Tuskegee men are such an inspiration to me because they taught me to fight for rights you deserve because no one deserves to go through no form of inequality. Also, don't let no one make you feel like you can't accomplish any challenges you face .(1.)
