

Dream Big

Have you ever had a dream and just pushed it away? And forgot all about it? Hold on to those dreams and work for them by aiming high, believing in yourself and never quitting. Have you ever quit on a dream? I almost did once, but I'm so glad I didn't, even when doubts entered my mind.

When you aim high you are noticed by friends, teachers and coaches. It feels good when other people see you working hard to reach your goals. When you aim high you do better on the field, school, or at home. When you believe in yourself you overcome more than you think is possible. And you should never quit. If you quit, you are setting yourself up to fail in life. The best way to succeed is to aim high, believe in yourself, and never quit. For me to aim high, never quit and believe in myself helps with football, showing animals, and at home and school.

One time I never quit was when I was trying to break my heifer to lead. She was extremely hard to break. It took days and a lot of patience, but she eventually was the best. Sadly, she died at a dairy, and it was hard on me, but by using the three examples of aiming high, believing in myself, and never quitting, I made it through. It was more difficult than I could ever have imagined. I could not sleep for the first night. She was the first heifer I ever had and the best. As well, she would let me sleep with her at all the shows. Not all animals will let you do that. Even though I was hurting, I never quit and kept believing in myself. Through tough times, I learned how important it is to keep going.

When you have a dream don't just give up on it when problems happen. Making it through, will help build character and many times you will learn an important lesson. You should aim high, believe in yourself and never quit. ... Even when it is difficult.
