Aiming High

Expect to win: Expecting to win is very important. Some people might think that I am only talking about sports but you should expect to win in all areas of life. Why should you expect to win in life? Expecting to win in sports, life, and ect. gives you a better chance at succeeding in whatever you are doing. If you are expecting to win, you probably will win.

Confidence is extremely key in life, sports, etc. Having confidence means to believe and know that you can do it. Being able to see it in your mind, helps you achieve it. That is what I think having confidence means.

Believing in yourself: Believing in yourself is key . Especially when no one else does, because when you are in 5th-6th grade, you know no one else believes that you can make a difference in this world. Because it really doesn't matter what age you are, you can still make a difference and all you need is to believe in yourself to make it happen. People of all ages can make a difference.

Winning Mindset: Having a winning mindset is very important in sports, life, and ect. Because if you have a winning mindset you probably are going to have a better chance of winning. Sometimes you may be the only one who believes in you, but that can change. But that's what I think having a winning mindset means to me.

Aiming high: Aiming high is extremely important in life, sports, and more. Aiming high will eventually get you to where you want to be in life. You can't just get there by sitting and hoping. You have to strive to get there. In closing, you can't just aim high, you also have to expect to win, have confidence, have a winning mindset to get to where you want to be and accomplish your goals to get there.
