5th Grade

Life comes with challenges and victories. How you react says a lot about your beliefs. It is not always easy to have a good attitude, but you should still try.

Believing in yourself is a big thing in my family. It is big because we are big sports players and sports fans. So say to yourself if you don't believe in yourself: I got this. Then if it doesn't work just believe that you can do it the next time or the next. That's what I do if I don't believe in myself. If you believe in yourself, you are likely to never quit.

Never quitting is a big thing for me since I play sports. Never quit means for me just to keep trying. If you never quit you will succeed in something in life. I want others to succeed in life and I want you too also.

Just remind yourself to keep trying and never quit.

You should always expect to win. Expecting to win can be a big thing in life or not. Expect to win means to me is to try the best you can. With that you should be in a good mood to spread happiness so others can expect to win. Expecting to win should always be a thing to have in your mind no matter what it is you are doing.
