

Ethan Mata
5th Grade

If you believe in yourself, you get more work done. You can focus. Use your brain so you won't be distracted. You will get more work done. You should never quit. If you believe in yourself, use your brain and never quit.

You will accomplish a lot of stuff in life. If you do these steps you can graduate school. You go to college and learn things you have never learned before. So make sure you never give up. If you do all of these steps you can expect to win.

You can set your goals ,accomplish these goals in your life and you will have a good job. It depends if you believe in yourself and never give up. One time at a spelling test I just doubted myself. I was going to get a bad grade, but if you believe in yourself you get a better grade of spelling goals and believing in yourself helps you succeed in most everything you try.
