5th Grade

One thing I have learned is to never quit, believe in yourself and be ready to go. These three phrases will help you, me and everyone in life.

Some people have trouble with goals, work, school work, and other things in life. When people have trouble (including me) with school work, goals and other little things in life, sometimes they want to quit or give up. When you want to quit or give up just remember two words: **Never Quit.**

Being ready to go is what a lot of people have trouble with. For example, when you get into a classroom you usually sit down until the teacher comes inside the classroom. Being ready to go means going to class prepared with paper and pencil or whatever is needed. Your mind also has to be ready to work.

A lot of people have trouble believing in themselves. **Believing in yourself** takes a lot of self confidence. Believing in yourself looks easy until you really actually try to believe in yourself. Believing in yourself is doing something “you aren't good at” but with some self confidence and with four words you can say, “I believe in myself.”

I hope using these three phrases will help with what career I want to accomplish in the future. Who knows what I will be able to do in the future with just these three phrases. I know they will help me now and as I get older. Who knows what you could do in the future with just these three phrases.

I believe in myself!

I will be prepared!!

I will not quit!!!
